

A modern hotel lobby with a reception desk. Two staff members, a man and a woman, are working behind the desk. The man is on a phone call, and the woman is looking at a laptop. Behind them, three large, vibrant floral art prints are displayed on the wall. To the left, a large vase of flowers sits on a table. To the right, a large potted plant is visible. The overall atmosphere is warm and sophisticated.

IMPACTFUL ART FOR ANY SPACE

FINE-ART PRINTS | COLLECTION 26/27

A RICHER SPACE.

Art changes how a room feels. It brings colour, character and atmosphere. It can quietly complete a space or define it.

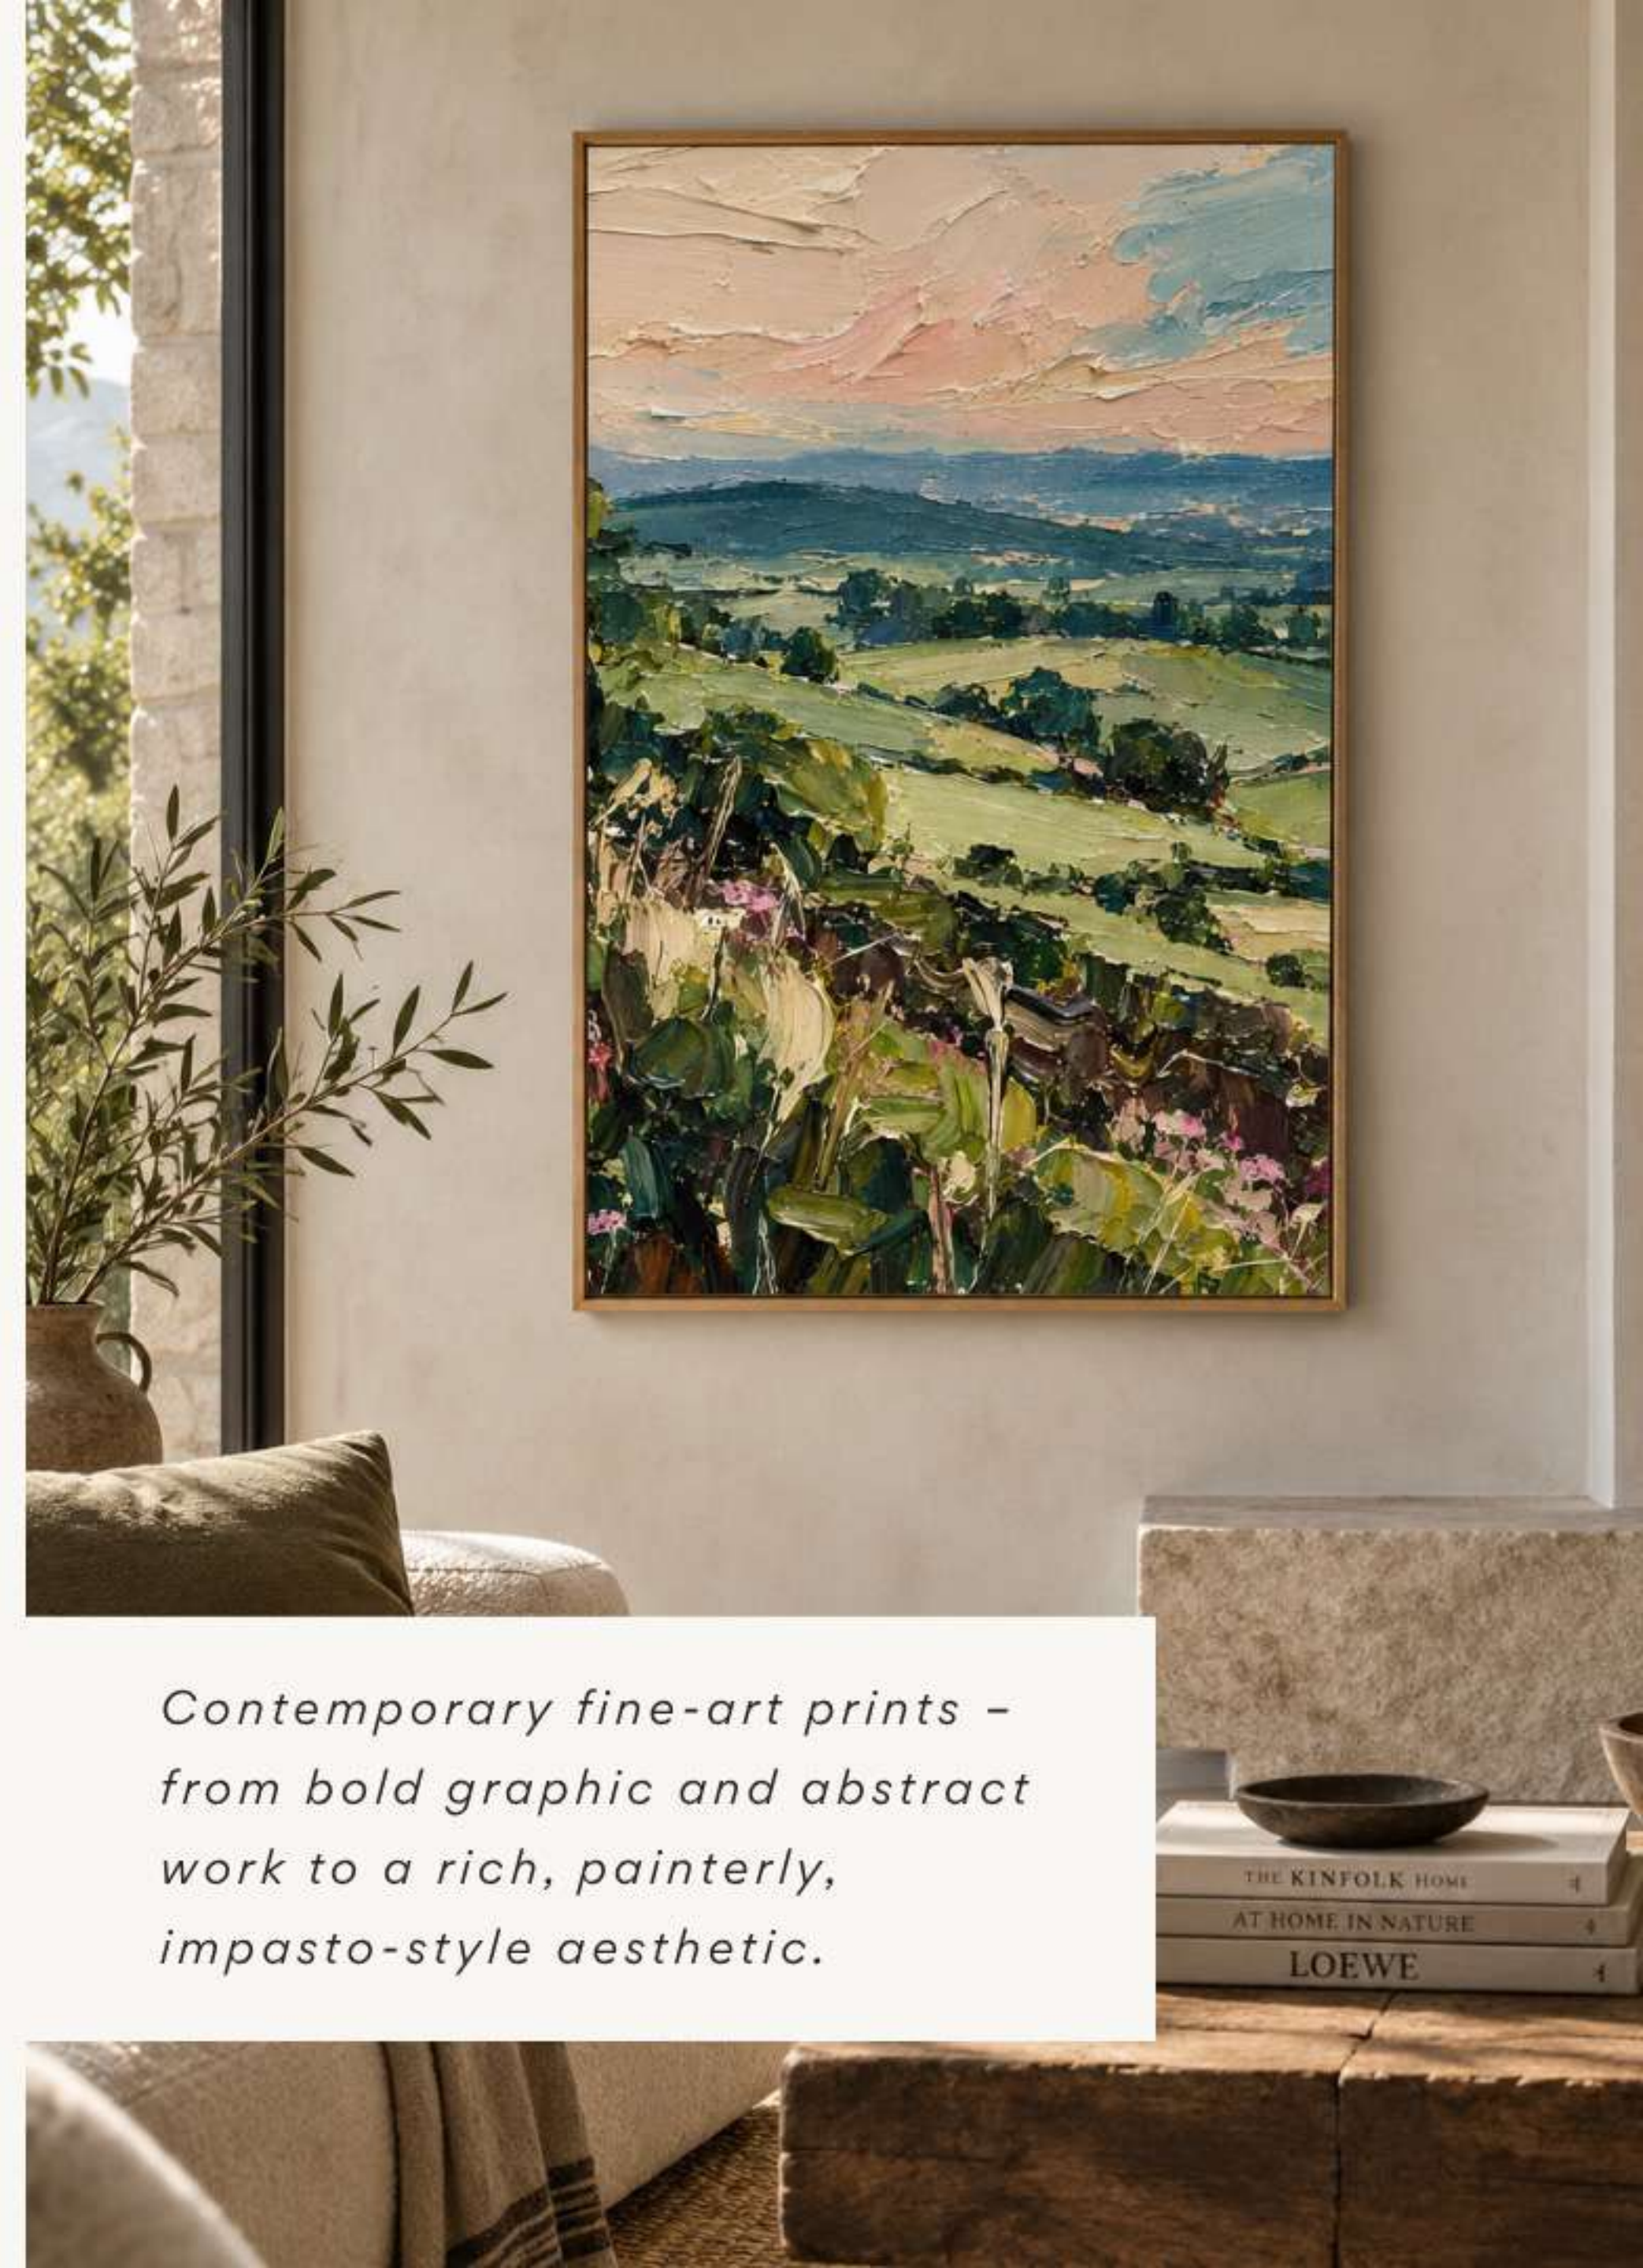

The Sizzler Art collection is made up of contemporary fine-art prints, ranging from bold graphic and abstract work to pieces with a rich, painterly, impasto-style aesthetic.

Depth, movement and heavily worked surfaces give the impasto-style pieces an almost three-dimensional quality in print, while retaining the refined finish of archival giclée, with its exceptional colour, tonal depth and fine detail.

The work comprises individual statement pieces, pairs, triptychs and wider collections, offering plenty of scope to curate artwork across an entire space rather than simply select individual prints.

Bespoke pieces and complete collections can also be developed around a particular property, palette, location or creative brief.

For one wall. Or a whole interior.

THE PRINT AS ART.

The final piece is considered as carefully as the artwork itself.

Each artwork is created specifically for print and produced as an archival giclée fine-art print on premium 310gsm cotton etching rag.

Substantial and beautifully tactile, the paper has a softly textured, matte surface that gives colour richness and depth while retaining exceptional clarity and fine detail. Its natural character is particularly suited to the apparent texture of the painterly works, while giving the graphic pieces a beautifully refined finish.

Archival giclée printing is chosen for its exceptional colour fidelity, tonal range and longevity, allowing the artwork to retain its vibrancy and character for years to come.

ONE SIZE. BIG IMPACT.

A1 — 594 × 841 MM | 23.4 × 33.1 IN

Every artwork in the collection is offered in a single, considered A1 size. Large enough to give the work real presence and allow colour, detail and apparent texture to come into their own, while remaining a versatile scale for residential, hospitality and commercial interiors.

A consistent format also makes it easy to bring works together as pairs, triptychs and larger groups, with a natural sense of proportion and continuity.

MADE TO LIVE WITH.

Art doesn't exist in isolation. It becomes part of a room — alongside its architecture, furniture, light, colour and the people who use it.

The collection has been created with that relationship in mind: artwork with enough presence to transform a wall, and enough range to find its place across very different interiors.

Choose one. Put two together. Fill a space. Find what belongs.

For larger projects, a series of related works can be developed across multiple rooms or areas, creating a considered visual thread throughout.

From private homes and individual rooms to boutique hotels, restaurants, bars, workplaces and commercial interiors, commissions can be developed at almost any scale.
